

Brief Curriculum Vitae

Dr. Georgios A. Evgeniadis MD, MSc, MSc, PhD

Orthopaedic Surgeon, Consultant, GH Kozanis, Minimally Invasive Spine Surgery

Education:

1. Medical Faculty, University of Perugia, Italy, 2001
2. Doctorate Degree, DUTH, 2009
3. Master of Science, OUG, 2012
4. Master of Science, DUTH, 2004
5. Faculty of Physical Education and Sports Science, AUTH, 1990

Postgraduate training:

1. Fellowship on Spinal Minimally Invasive Surgery, Institute Spinal Care, Phoenix, Arizona, USA
2. Fellowship on Spinal Minimally Invasive Surgery, St. Anna Hospital, Herne, Germany
3. Fellowship on Endoscopic Spine Surgery, Centre for Endoscopic Spine Surgery, Sushrula Hospital, Miraj, India

Scientific Interests:

1. Effect of Minimally Invasive Techniques (endoscopic discectomy, transdermal discectomy and microdiscectomy) on the frequency of postoperative complications, in patients with disc herniation and spinal stenosis.
2. Mobility of spinal joint after intradiscal Laser in patients affected by lumbar herniation
3. The biomechanical effect of the wide lumbar fusion on long term stability of thoracic facet joints.
4. Mobility alterations of L4 and L5 facet joints after total disc displacement on L4-5 disc space.

Indicative publications:

1. Surgical treatment of thoracolumbar spine fractures.
2. Total Knee Arthroplasty with Rotaglide mobile spacer.
3. Surgical difficulties in total hip replacement surgery.
4. Total Knee replacement after condyle osteonecrosis.
5. Recurrent shoulder dislocation: a new surgical technique.
6. Acromioclavicular joint instability
7. Surgical treatment of intertrochanteric hip fractures: yesterday and today.
8. Surgical treatment of Achille's tendon rupture.

9. Psychogenic low back pain.

10. Recurrent anterior shoulder dislocation: a new surgical technique

11. Mobilization of frozen shoulder.

12. Intramedullary tibia nailing using the Orthofix nail.
